

LILY ROSE VOSARI

Norwalk, CT | 203-919-0514 | lilyvosari@gmail.com | lilyrose1013.github.io/LilyVosari_Portfolio/HomePage/index.html

EDUCATION

The New School: Parsons School of Design

New York, NY

Bachelor of Fine Arts, Design and Technology

Expected May 2027

Concentration: UI/UX Design | Senior Year

Relevant Coursework: Core Studio Systems, Core Studio Environments, Core Studio Objects, Critical Computation Lab, Core Lab Systems

EXPERIENCE

Skating Coach

November 2019 – Present

Stamford Twin Rinks, Darien Ice House, Rising Stars Hockey — Stamford & Darien, CT

- Teach structured one-on-one and group lessons to children, young adults, and adults across varying skill levels, developing individualized curricula for each student.
- Establish short- and long-term performance goals with students, tracking progress and adjusting approach based on ongoing feedback.
- Manage groups of 15–20+ skaters simultaneously, coordinating safe and productive sessions through planning and clear communication.
- Research and adapt instructional techniques to meet the needs of a diverse range of learners, including children with different learning styles.

Volunteer

September 2019 – Present

Darien Community Association — Darien, CT

- Support programming and events for a youth-focused nonprofit that directs proceeds toward local educational initiatives.
- Collaborate across teams with shifting roles and responsibilities, contributing to both planning and execution.

PROJECTS

Interactive Hardware Games — Arduino / Physical Computing

2025–2026

- Designed and built two fully playable arcade-style games using Arduino Mega, TFT displays, and HC-SR04 ultrasonic sensors, managing the full process from concept to working prototype.
- Diagnosed and resolved hardware and software conflicts across display drivers, wiring configurations, and library integrations to produce stable, responsive user interactions.

Community Sustainable Energy — Sustainable Systems

2023

- Researched sustainable energy infrastructure in New York City, investigating existing systems and identifying gaps in community-level energy access and distribution.
- Produced a theoretical design diagram for a community-based sustainable energy network, mapping potential implementation across residential and public spaces.
- Created a short theoretical video exploring water scarcity as an interconnected environmental concern, contextualizing energy sustainability within broader resource systems.

Portfolio Website — lilyrose1013.github.io/LilyVosari_Portfolio

Ongoing

- Designed and built a personal portfolio site using HTML and CSS to document creative and technical work across UI/UX, physical computing, and research.

SKILLS & INTERESTS

Technical: Figma, Adobe Creative Cloud, JavaScript, Python, CSS, C#, Unity, Blender, Canva

Language: English (native), Estonian (fluent), Finnish (fluent), French (conversational)

Interests: Figure skating (15 years, US Figure Skating), immersive and sensory experience design, classic literature, psychology of human interaction
